POLICE COURT NOTES.

"Tom Carroll," called Assistant City Attorney Hingate this morning, when police court opened. In response walked in a dilapidated specimen of the genus Irishman. "Were you drunk last night, Tom Carroll?" asked Police Judge Ensminger. "I was yer honor; I plead guilty." "Did you disturb the peace?" "I don't know about that yer honor," but the police said they did know, and Judge Ensminger made his fine \$5.

James Smith was next called. He was also charged with being drunk. He wore the aspect of a confirmed bum. He said he was from Arkansas City, and seldom got drunk, but his face appeared in evidence against him, and Judge Ensminger made his fine \$5, and he was hustled back behind the bars and locked up.

Some Kansas Wants.

Strong City people want a harness shop to locate there. It is without any now.

Nortonville wants some experienced person to operate its canning factory.

It cures blood and skin disorders. It does this quickly and permanently. Is there any good reason why you should not use Dr. Witt's Sarsaparilla? It recommends itself. J. K. Jones.

TALKED OF BIRTHMARKS

Doctors Discuss a Matter of Much Curious Interest.

Dr. Reid Alexander, the president of the Topeka Academy of Medicine and Surgery, called the meeting of the doctors to order last evening at No. 723 Kansas avenue.

The first paper of the evening was read by Dr. J. E. Minney. The subject was "Herpes Zoster Ophthalmicus," commonly known as "shingles."

He brought a subject with him. It was Mr. William Bacon of Green, Kan., and his eyes and face were affected. The disease is one where some part of the body is improperly nourished and small blisters form.

Dr. R. E. McVey said that this disease was treated very differently to what it was when he was a young man. He said that the remedy for "shingles" used to be to put "black cat's blood" on the eruptions, or if the sufferer be "well fixed," to cover the eruptions entirely with gold. The doctor said laughingly that these remedies seemed to cure the case.

Dr. J. L. Gilbert read a paper on "The Angioma of the Skin." He had some microscopic specimens. He told of a case of that which was under his care. An operation was necessary, and the doctor preserved the tumors and exhibited them before the society.

One form of angioma are "birth marks," so commonly seen. One of the doctors said that he didn't believe in the theory that was prevalent among all women, that a child was pre-natally marked by the impressions of the mother. He cited as an instance his own wife. One day he found some very young rats. They were hardly able to move. He picked them up in his hands and went to the house. Just for a joke he told his wife to hold out her hands. She did so, and he dropped the young rats into them. "Do you know," said he, "my wife said, 'my child will look like a rat,' and I could not make her think differently. Just after the child was born she asked if it looked like a rat. You all know my son, and I'm sure he doesn't look raty. I think it is the mission of the medical profession to dispel all these fears."

Dr. J. C. McClintock read a paper on hernia, and cited a case.

Dr. R. E. McVey and Dr. Stewart, cited a case in the discussion, and also Dr. Schenck.

The following physicians were present: W. H. Righter, W. E. McVey, W. L. Schenck, J. L. Gilbert, J. H. Cannon, R. D. Eastman, J. E. Minney, R. S. McGee, R. E. McVey, S. C. Stewart, G. A. Wall, S. E. Sheldon, M. O'Brien, M. B. Ward, W. S. Lindsay, H. K. Tefft, D. B. Colcord, J. C. McClintock, H. T. Wehe, Agnes McKee Wallace, Mary E. Church, Harriet E. Adams, Ida C. Barnes, Maggie McCrear.

Miss Frisbee, a medical student, was a visitor at the meeting.

ROW IN THE AMEN CORNER.

Trouble in a Methodist Revival Ends in Discharge of the Offender.

A crowd of colored people from North Topeka occupied the attention of the police court this morning. The case was that of Berry Elder, charged with disturbing a Methodist revival meeting. The testimony failed to sustain the charge. It was found that Deacon John Jordan attempted to make a demonstration of his authority and Berry did not accede to his commands quite so readily as Deacon Jordan considered proper in a common sinner.

There were various threats about destroying the physiognomy of the deacon and counter threats, but it was found that they were made quite as decorously as such things could be. The preacher was present and said he was not disturbed in the least and knew nothing of the trouble, so Deacon Jordan was compelled to pocket his disappointment and Judge Ensminger told Berry he was discharged.

The notorious Ben Jordan, bootlegger, was a witness for the defendant. Judge Ensminger asked him, while on the stand: "How did you happen to be at church, anyway?"

"O," said Jordan, with an expansive smile, "I goes sometimes."

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

THE NEW HOSPITAL.

The Santa Fe Hospital Board Meets Tomorrow Afternoon

TO TAKE ACTION ON BUILDING.

Conductors of Kaw Valley Division Opposed to Seniority Rule—Other Railroad Matters.

Topeka will probably soon have the satisfaction, and shortly too, of seeing work begin on the much talked of Santa Fe hospital building.

As our readers already know, a magnificent site covering nearly an entire block on the south side of Sixth avenue, between Jefferson and Madison streets, was purchased last winter and plans drawn for a two story and a high basement building to be built of New Mexico stone. Tomorrow afternoon at 2 o'clock a meeting of the hospital board will be held in the chief surgeon's office at the Santa Fe building, to discuss the matter and settle the question of a liberal appropriation and the calling for bids. A prominent Santa Fe official spoke in a very encouraging manner to a JOURNAL reporter today in regard to the prospective early commencement of the building and active operations will likely begin in a very few weeks.

THE SENIORITY RULE.

Kaw Valley Conductors Want Merit and Not Age to Count.

At a meeting of conductors, brakemen and trainmen at the hall of Kaw Valley division No. 55 of the order of Railway Conductors, at Kansas City, a vote on the abolition of the seniority custom on the Missouri Pacific has been taken, and the measure carried almost unanimously.

Seniority is nothing more or less than the promotion of men according to their length of service in the company. It is the custom on western railways to do this, but recently the men on the Rock Island railway decided that merit alone should be considered in the promotion of men, and the best men should go up whether they had served the company ten years or ten months. The Missouri Pacific railway officials will now be asked to abolish seniority.

DIED ON THE TRAIN.

William F. Boate of Philadelphia, Passes Away Near Topeka.

Away from home and friends, almost alone, with stranger faces peering into his and stranger hands, though willing, aiding in his comfort, William F. Boate of Philadelphia, died of consumption on the east bound Santa Fe passenger train, No. 4, just after it left Topeka Sunday afternoon.

Mr. Boate had been to California for his health in charge of his brother Geo. Boate, but grew rapidly worse there and feeling that he must soon depart this life expressed a desire that he be taken home to die, and the comforting presence of his relatives and friends. He was much worse at Emporia and although Dr. O. H. Smith of New York, was on the train and exerted his skill to the utmost the patient died.

Mr. Boate was 34 years of age and unmarried. His remains were shipped from Kansas City to Philadelphia.

ALL ALONG THE LINE.

Railroad News Items Interesting to Rail-riders and the Public.

The "Friaco" has ordered a new depot to be built at Needlesha.

The Santa Fe's California business is reported as still in the ascendancy.

Of the westbound emigrant business for the present year, the Union Pacific is said to hold 80 per cent of the contracts.

C. W. Kouns, superintendent of the Santa Fe car service, has left for the east on business, connected with his department.

W. R. Welch, the efficient Santa Fe relief agent, is at his home in Williamsburg, Franklin county, for a vacation on account of ill health.

J. P. Johnson, assistant superintendent of the Rock Island car service, will be given the third degree in Masonry at the Siloam lodge Thursday evening.

The order recently issued by the railroads for the free transportation of goods and seed grain destined for the sufferers in western Kansas has been withdrawn.

The employees in the auditor's office of the Santa Fe are now working two hours each evening, for a short time on account of additional work connected with the receivership.

About \$675 worth of cordwood belonging to the Santa Fe has been burned at Argentine. The fire was caused by sparks from one of the engines, and 225 cords were destroyed.

Secretary of War Daniel S. Lamont was in Topeka for three minutes yesterday noon on his way from Fort Riley to Ft. Leavenworth in a special train. He is inspecting the western forts.

The Newton men of the Santa Fe passenger service will get the new Baldwin engines. The engines they will replace will go into the freight service on the Kansas City and Emporia branch.

In May the Union Pacific will put on two new passenger locomotives which, it is said, will be the fastest and most powerful in the west. They are now being built at its Armstrong shops at Kansas City, Kans.

Two farmers residing near Maryville, Texas, were arrested Saturday evening by a Santa Fe detective, charged with having placed obstructions on the rails near Thackerville, O. T., recently for the purpose of robbing a north bound express train.

Topeka will tomorrow witness a procession of forty-three cars of fruits and vegetables bound eastward from California. The train left Albuquerque yesterday, and forty of the cars are loaded with oranges. They are nearly all of the navel variety.

For several years past the business of insuring the employees of the Santa Fe has been in the hands of the "Travelers" of Hartford, but Judge Caldwell has ordered that the business be given to the Union Casualty of St. Louis, because "he preferred a Western company should have it."

Engineer James D. McKinney, whose bravery and presence of mind saved the Rock Island train from a hold-up at St. Joseph, has been presented a handsomely engraved gold watch by the Rock Island railroad and United States Express company. The watch is valued at \$250.

Trip passes B 4670 and 4671 have been cancelled by the Santa Fe. These passes were issued on March 30 to N. A. Heaton and J. M. Heaton, Albuquerque to Chi-
